SUBJECT McNary - John Day				

SUMMARY

He is concerned about the option that would relocate all the lines around the Indian Allotment in Mile 32. He would like to meet w/me so he could see what it would look like on the ground. He would also like to know if he will have to move the wind machines that are currently located south of the existing corridor. He said, "If this is a matter of who is the bigger pain in the ass, I can remedy that."
